Introducing Grimes Wealth Protection Group

We are pleased to introduce Grimes Wealth Protection Group – our new in-house insurance and risk management division. By expanding our capabilities to include insurance, we can better serve our clients and further deliver on our mission to forge a path to financial peace of mind.

The GWPG team will be led by Rich Dunsmore, a longtime friend of Grimes & Company. Rich brings over 25 years of industry experience and expertise within the areas of life insurance, long-term-care solutions, income protection and legacy planning.

Rich comes from a family of three generations of insurance professionals, beginning his career in Montreal, Canada, in his family's business, Dunsmore Insurance Agency. After relocating to Boston, Rich co-founded Arons & Dunsmore Insurance Agency in 1998 with the goal of helping individuals, families and businesses identify estate and succession planning objectives.

We are thrilled to welcome Rich to the team and offer GWPG as another resource in our continued commitment to helping you build, preserve and protect your wealth. As you consider how managing risk may be integrated into your financial plan, we would encourage you to reach out to your Grimes advisor to address your own evolving needs.
